

Communists Declare War On Catholics

Campaign Underway On Clergy

Prague, Czech., June 24—(AP)—The Communist government announced today a strong new police campaign is under way against Roman Catholic bishops and priests in Slovakia.

Church and diplomatic quarters already had reported the Communists have been closing monasteries and arresting priests for weeks in that southernmost province and stronghold of Catholicism.

Archbishop Josef Beran, now held incommunicado, is accused of being the leader of the clergy's opposition to state efforts to control or replace the church.

The government announcement said police action was taken against "reactionary" clerics for "creating disturbances."

Slovak provincial officials said they acted under measures prescribed by the central government on Tuesday.

The nature of the police measures was not disclosed by the government. Communist Premier Antonin Zapotocky broadcast to the nation Tuesday a statement that "the law will take its course against saboteurs and provocateurs and all those fomenting disunity and unrest."

Nature Undisclosed

Slovak provincial officials said they acted under measures prescribed by the central government on Tuesday.

The nature of the police measures was not disclosed by the government. Communist Premier Antonin Zapotocky broadcast to the nation Tuesday a statement that "the law will take its course against saboteurs and provocateurs and all those fomenting disunity and unrest."

Accuses Beran

He specifically accused Archbishop Beran of trying to incite unrest and wreck Czechoslovak economic planning.

One large Prague church was filled to overflowing tonight following a report that Beran would appear there at a service of the Sacred Heart. When he failed to appear an hour after the supposedly appointed time, the parish priest said privately the archbishop had cancelled his plans "because of the prevailing conditions."

This might mean Czech police prevented his emergence from his palace because of his defiant sermons of last week end.

Price Demands End To Atomic Investigation

Washington, June 24—(AP)—Rep. Price (D-Ill.) today demanded an end to the lengthy congressional atomic investigation so that top atomic officials can "get back on the job."

The Illinois lawmaker, a member of the Senate-House atomic "watchdog" committee, said the hearings have kept atomic energy commission members from their work and taken the time of "almost every top AEC official."

Price said in a statement: "Up to now it may well be that this investigation has done more harm than good."

"It is time the commission was allowed to get back to its job—the job it was hired to do: To maintain this nation's lead in atomic development."

But Chairman McMahon (D-Conn.) said in a later statement that he had promised the people a full review of the evidence of Senator Hickenlooper's (R-Iowa) charges of commission mismanagement, with an equal chance for the AEC to reply.

Hawaiian Unions Refute Statement Of Senator Butler

Honolulu, June 24—(AP)—Two Hawaii union leaders issued a joint statement today declaring the report of Senator Butler (R-Neb.) opposing statehood for Hawaii on grounds of communist infiltration was "nothing but a bald-faced attempt to keep Hawaii from attaining its rightful place as the 49th state."

Senator Butler's report in Washington yesterday said Jack Hall, Hawaii regional director of the CIO International Longshoremen's and warehousemen's union, and Robert W. McElrath, the union's public relations spokesman, were active communists in 1948.

In the statement, issued to reporters, these two pointed out they had previously denied communist party membership.

The union leaders expressed their opinion that Senator Butler "received his information from employer and anti-union sources."

JOE E. BROWN

Long Beach, Calif., June 24—(AP)—Comedian Joe E. Brown was reported "in good condition" today, after a hernia operation at the naval hospital here.

Hiss Denies Chambers' Accusations Of Deal

New York, June 24—(AP)—Alger Hiss branded as false today the story that he made a secret Chinatown deal to give state documents to a mysterious Russian agent.

"There is not a word of truth in that," he said solemnly to Whittaker Chambers' tale of an undercover rendezvous with Col. Boris Bykov.

Outwardly composed and confident, Hiss continued his sweeping denial of perjury charges and insisted that he never betrayed his country from his prewar state department post.

The 44-year-old former state department official took the stand in federal court for the second day as the chief bulwark of his own defense.

Chambers, self-described one time courier for a Russian spy ring, repeatedly has charged that Hiss was a fellow communist and that in 1937 and 1938 Hiss turned over important documents to him for relay to the Russians.

Today under direct questioning by his defense counsel, Lloyd Paul Stryker, Hiss again denied that:

1. He ever turned over state de-

partment secrets to Chambers or any other, unauthorized person.

2. He had even seen Chambers, whom he knew as one "George Crosley," after "late May or early June, 1936."

3. He had ever met the mysterious Colonel Bykov, described as a red master spy and to whom Chambers said he introduced Hiss during a furtive meeting at a Brooklyn motion picture theater and a subsequent conference at the Chinese cafe.

Beckwith Confesses

Morrison, Ia., June 24—(AP)—Edward J. (Buddy) Beckwith, 27, of Morrison, who said he had been "crazy for her," today confessed the mutilation slaying of a pretty 22-year-old mother, State Agent Max Studer said.

The brutally slashed, nearly-nude body of Mrs. Irma Jean Stahlhut was found early yesterday in a walk-in refrigerator of a tavern here where she and her husband operated.

Beckwith, a handsome World War II veteran, told authorities in a signed statement that he killed Mrs. Stahlhut in the cooler with a paring knife after attempting to sexually assault her, Studer said.

An "open" charge of murder was filed by Sheriff John A. Meyer in the court of Justice of the Peace Harvey Kimball of Grundy Center late today. Beckwith waived preliminary hearing and was bound over to district court.

Meyer explained that an "open" charge of murder is one which does not specify first or second degree murder, or manslaughter.

The knife with which Beckwith said he committed the slaying was found this afternoon in tall weeds along the Rock Island railroad tracks a quarter of a mile outside Morrison, the sheriff said.

Young Republicans Warn Farmers Of Brannan Act

Salt Lake City, June 24—(AP)—Led by National Chairman Hugh D. Scott, Jr., Republicans told the farmers today the cost will come out of their financial hides if the Brannan plan becomes law.

Scott, here to talk to the young Republican national federation convention tomorrow, told a news conference the farm subsidy program proposed by Secretary of Agriculture Brannan will hit the farmer hard in higher taxes.

"The Democrats propose to tax the successful and hard-working farmer to take care of a lot of government bureaucrats and bring about a socialized leveling off in income," he declared.

He added that if the cost of the Brannan plan, which involves a guaranteed income to farmers on perishable crops which are sold at market levels, amounts to a high figure, proposed subsidies might have to be cut sharply.

Churchill Painting Brings \$5,250 Bid At YWCA Auction

London, June 24—(AP)—Winston Churchill parted with one of his paintings today for \$5,250. He never sold one before.

All he got out of it was that glowing feeling of appreciation and an idea of what other "Churchills" might bring at auction.

The money—1,250 guineas—went to the Y.W.C.A.

Mrs. Churchill wheeled the 74-year-old wartime prime minister and bobby painter into putting "The Blue Room, Trent Park 1934" on the auction block at a Y.W.C.A. benefit she was promoting.

The buyer was a Brazilian newspaper chain headed by Assis Chateaubriand. The autographed 19 1/2 x 13-inch work, which was hung in the Royal Academy last year, will be presented to the Sao Paulo art museum.

Art critics who long have wondered over the worth of a "Churchill" weighed circumstances against merit and technique in their appraisal after the sale. But most agreed that Churchill is a competent painter after 34 years of dabbling. He does it to relax.

Snakes are known for their gluttony. A 70-pound python once ate a 20-pound pig in one meal. This was enough to supply the snake with energy for more than a year.

Truman Seeks Law To Sever Politics And Postmasters

By Francis J. Kelly

Washington, June 24—(AP)—President Truman asked Congress today for a law which would divorce the appointment of postmasters from politics.

In a special message, he also asked for legislation to put the post office department on a "businesslike basis" with streamlined budget and accounting procedures.

And he renewed his recommendation for higher postal rates to overcome an anticipated deficit of \$400,000,000 in the next fiscal year.

Some 21,000 postmasters of the first, second and third class, which takes in all cities and the larger towns, now are appointed by the president subject to senate confirmation. Fourth-class postmasters are appointed by the postmaster general, with no senate action required.

"If the postmaster general is to be held responsible for the efficient conduct of the postal service," Mr. Truman told congress, "he should be given full authority to appoint postmasters and other postal employees subject only to the provisions of the civil service and classification acts."

Hundreds of postmaster nominations were held up for months in the Republican-controlled 80th congress, although GOP leaders denied that politics played any part in the delay.

Substitute Housing Measure Offered During Debate

Washington, June 23—(AP)—Housing debate exploded in charges and denials today that the opposition is filibustering to kill President Truman's big bill for slum clearance, publicly-owned housing and farm housing aids.

Meanwhile, 10 House Republicans offered a substitute bill, embracing most of the administration proposals, but adding loan features for building 350,000 privately owned housing units.

The 10 rebelled against the House GOP policy committee, which has taken a firm stand against public housing legislation.

When Rep. Frances P. Bolton (R-Ohio) offered the 10-Republican bill, Rep. Shafer (R-Mich.) insisted that every word of the long and detailed document be read.

Rep. Marcantonio (American Labor-N.Y.) jumped up and suggested that the opposition is opening a filibuster. Shafer denied this, saying the House should know what is in the substitute. Usually proponents are given opportunity to explain their proposals instead of taking the time of the House for detailed reading.

Senators Oppose Any Recognition Of Reds In China

Washington, June 24—(AP)—Twenty-one senators today signed a letter to President Truman opposing any recognition of the communist regime in China.

They expressed "great concern" that the administration may be considering such a move.

"We further believe," the letter said, "that this government should make it clear that no recognition of the communist forces in China is being contemplated and that we shall make clear that a free, independent and non-communist China will continue to have the friendship and assistance of the United States of America."

The letter was signed by 16 Republicans and 5 Democrats.

"Some of us believe the issue of communist recognition is under active study," one senator said.

He added that the nationalist government is now blockading the waters of communist China and some senators fear the United States will not recognize this blockade.

Legislature Votes To Raise Minimum Teachers' Salaries

Springfield, Ill., June 24—(AP)—Higher minimum salaries for Illinois public school teachers were approved today by the Illinois House.

A bill raising the present \$1,200 a year minimum was referred to the Senate by a vote of 87 to 9.

The bill would establish annual guarantees of from \$1,600 to \$2,400 depending on a teacher's educational qualifications. Those with a master's degree would get the top minimum.

The bill is backed by the Illinois Education association, a teachers' group. It is opposed by the Illinois Association of School Boards, which says some school budgets could not meet the higher minimums.

Truman Asks \$45 Million To Help Backward Areas

Filibuster Attempt Delays Work Jam In Illinois House

By Louis J. Kramp

Springfield, Ill., June 24—(AP)—A two-hour, one man filibuster threw a delaying monkeywrench into the work-jammed Illinois House today.

It was intended to bulldoze the Senate into killing a bill the House narrowly passed the night before.

But Senate leaders scorned the ultimatum served by Rep. Clinton Searle, bushy-haired Republican from Rock Island.

They ignored his filibuster, and he called it off "temporarily." Instead of killing the bill, Senate leaders gave it the rush act and forecast senate passage.

Searle's threat poured fuel on the smoldering feud between the fast-moving Senate and the turtle-paced House.

The slowdown also frustrated leaders trying to speed up action on more than 400 bills awaiting House decisions in the four working days left in the six months session. The delay spelled death for many bills.

Searle, veteran stormy petrel of the House, started the filibuster by demanding that all bills be read in full. This is a constitutional requirement, but it's usually omitted if no member objects.

Two hours later he called it off, without explanation. But he said he may resume it Monday morning.

The House quit for the weekend early tonight because many members wanted to catch a train for Chicago to play with the House softball team in a game against Chicago aldermen tomorrow night.

Rockford Youth Elected Governor Of Boys' State

Springfield, Ill., June 24—(AP)—Dick Muraski of Rockford today was elected governor of Boy's State on the Nationalist party ticket, defeating Kenneth Mervin of Woodstock, the federalist candidate.

Muraski was sworn in a chief executive of the model government by Gov. Stevenson. Boy's State, patterned after the Illinois state government, is sponsored annually by the American Legion.

Other officers elected were: Jim Carey, Joliet, lieutenant governor; Leon Perley, Duquap, secretary of state; Jim Wilks, Harvey, auditor; Jim Busey, Urbana, attorney general; Don Wilkinson, Aurora, treasurer; Dave Andrews, Mattoon, superintendent of public instruction; Richard Neal, Benton, clerk of the supreme court; John Mabie, Winnetka, Earl Gordon, Chicago, William D. Norvell, Tuscola, Tom McDonald, Freeport and James Arthur, Monmouth, all state supreme court justices.

Gen. Jonathan M. Wainwright, hero of Bataan, reviewed the retreat ceremony held by the Boy's State militia at the state fair grounds.

No Customers Left For REA; Agency Will Discontinue

Springfield, Ill., June 24—(AP)—The state government's rural electrification agency is going out of business July 1 for lack of customers.

Director Roy E. Yung said today the state agriculture department's rural electrification division has served the purposes of its organization in 1936, and is no longer needed.

Recent rapid advances in electrifying farms have left only about 10 per cent of Illinois rural dwellers without lights and similar conveniences, Yung said.

The division cooperated with federal electrification agencies and utilities in expansion of services into rural areas. Twenty seven REA cooperatives now serve 92,000 customers in the state.

MOTORIST OFFERS 10,000 DRACHMAE FOR LICENSE FEE

Springfield, Ill., June 24—(AP)—A motorist applying for renewal of his Illinois drivers license enclosed 10,000 Greek drachmae in lieu of the 50 cents fee.

The applicant, E. P. Noderer, told Secretary of State Edward J. Barrett that the Greek currency was worth \$1. He said Barrett could keep the change.

Noderer, a Chicago Tribune foreign correspondent now in Switzerland, explained he had plenty of Swiss, French, Italian and Greek money but none of Uncle Sam's.

The secretary mailed Noderer the requested new license—and 50 cents in American coin.

Engel, Aged Swindler Of Widows, Captured

Chicago, June 24—(AP)—An internationally known confidence man, Sigmund Z. Engel, was trapped today by a middle-aged widow — the same type of woman police say he devoted his life to fleecing.

Engel, charged here with confidence game and wanted by police in several other cities, was arrested by two policemen as he gallantly escorted 55-year-old Mrs. Genevieve Parro into a swank luggage shop to choose bags for a proposed July 4 holiday trip.

Now Called 'Marshal'

Mrs. Parro's son, Dr. Richard Parro, a dentist, told newsmen the 73-year-old Engel, using the name of "Paul R. Marshall," had suggested that Mrs. Parro have the luggage she selected initialed "G.M." His

inference was that she soon might become Mrs. Genevieve Marshall.

Mrs. Parro, however, had had her suspicions of her elderly swain. Dr. Parro said, and notified her sister-in-law, policewoman Marian Hagen. Policewomen Hagen and Alice McCarthy posed as sales clerks in the shop on Mrs. Parro's tip—and the arrest followed.

Dr. Parro said Engel had represented himself as "a member of the diplomatic corps" and the owner of two Cadillac automobiles.

Meets Mrs. Corrigan

This tale, police said, was as inventive as the one with which he allegedly bilked another Chicago widow out of more than \$8,000. It was that case which brought his activities into the limelight.

Tonight officers brought Engel face to face with the widow who was fleeced.

"How could you do it?" attractive, red-haired Mrs. Reseda Corrigan, 39, cried when she saw her ex-suitor. She claims he swindled \$8,700 from her and then led her on a nine-day wild goose chase to New York in pursuit of her money.

But Engel declared he hadn't been out of Chicago, although he admitted taking the money from Mrs. Corrigan. "She's going to get every cent back," he exclaimed.

With dark eyes blazing, the former government girl thrust forward in the witness chair, at times half rising and beating her fists on the chair arms, and poured out a torrent of bitter cries:

"I am innocent... I'm being framed, trapped... I'm not a communist and never was a communist... God knows how many deceptions and all kinds of frame-ups you have put in this case... I will always say that I'm innocent and that I'm being framed..."

"This whole case is so fishy that it smells to high heaven."

She did not break down. The words tumbled forth and her voice rose in shrill vehemence, but there were neither tears nor feminine sobs as she lashed out against prosecuting attorneys, the justice department and even the man she professed to have loved, in a virtually unbroken tirade.

Spectators in the hot and crowded federal courtroom, caught up in a moment of crackling drama, listened spellbound as Miss Coplon shouted her accusations.

Alabama Editor Tells Of Warning After Klan Attack

Jasper, Ala., June 24—(AP)—A weekly newspaper editor disclosed today he had been warned to "watch your step" after he attacked the Ku Klux Klan in a radio broadcast.

Paul Trawick, editor of the Union News, said the warning came in an anonymous telephone call Monday night.

"Go right ahead and write about your tea parties but leave this other business alone," Trawick quoted the caller as saying.

Trawick, who broadcasts five nights a week over radio station WWWW here, said since then he had been tipped by a friend that he "might expect a little trouble."

He said he has a .45 caliber pistol ready.

Girl, 13, Faces Trial For Murder In Boy's Death

Joliet, Ill., June 24—(AP)—Circuit Judge James V. Bartley today refused to dismiss a murder indictment against Diana Allen, 13, charged with killing her playmate Charles "Snooky" Johnson, 7, by holding his head under water.

James Burke, defense attorney appointed by the court, contended police used threats to obtain a confession from Diana. He also argued that evidence presented to the grand jury was insufficient for a murder indictment.

Burke called all 13 witnesses who appeared before the grand jury and reviewed their testimony. He claimed the child's admission of the killing was obtained when Deputy Sheriff Roy Doerflinger told her she would be sent to the penitentiary.

Judge Bartley ruled that the admissibility of the confession would be decided at the trial. One week was allowed for further motions with a final plea of guilty or innocent to be entered by July 1.

Charles' body was found floating face down in a creek near his home May 1. The grand jury decided the girl "willfully and with malice aforethought" held Charles' head under water until he was drowned. She was indicted June 2.

Would Need Private Investment

Washington, June 24—(AP) President Truman asked Congress today for \$45,000,000 for his plan to help backward areas of the world build up their economies.

In a special message, he also recommended that the export import bank be authorized to guarantee American private capital invested in productive enterprises abroad against "the risks peculiar to those investments."

Such enterprises, he added, must contribute to the economic development of such areas.

Covers Aid Programs

The \$45,000,000 he asked includes \$10,000,000 already requested in the 1950 budget. It is to cover American participation in the aid programs of the international agencies, and permit assistance directly by this country.

The general program has been called "point four" because Mr. Truman first mentioned it under that heading in his address to this congress at the opening of this session in January.

In today's message, Mr. Truman said the measures he was asking of congress now "are only the first steps."

Offers Challenge

The president said, too, that the "grinding poverty and the lack of economic opportunity for many millions of people in the economically underdeveloped parts of Africa, the Near and Far East, and certain regions of Central and South America, constitute one of the greatest challenges of the world today."

If the people of these areas become frustrated and disappointed, he said, "they may turn to false doctrines which hold that the way of progress lies through tyranny."

Main Points

He emphasized that the plan has two main points:

1. Technical assistance to be provided through the United Nations or directly by the United States, and

2. Private investment to turn underdeveloped areas into producing for the world economy.

Sophoulis, Aged Greek Premier, Dies After Stroke

Athens, June 24—(AP)—Themistokles Sophoulis, the aged Greek premier supported by the western powers to head the fight against communist inroads from the north, died after a stroke today at his summer home.

The durable old Greek scholar, politician and revolutionary had suffered a stroke on his 88th birthday last Nov. 24 and doctors gave up hope for him then. But he rallied back into active work and rode out the persistent Greek political storms until his death, which came unexpectedly.

King Paul asked Constantin Tsaldaris, deputy premier and foreign minister, to form a new government.

Tsaldaris, who was formerly premier, said he would meet tonight with Sophocles Venizelos, labor minister and a leader in the Liberal party which Sophoulis headed, to discuss details of a new cabinet.

Tsaldaris heads the Populist party, which is conservative and traditionally royalist.

The long and continuing fight against communist guerrillas aided by the Soviet Satellites to the north—Bulgaria, Yugoslavia and Albania—brought Sophoulis his highest recognition in world affairs.

The funeral was set tentatively for Sunday. The body will lie in state in the Greek Orthodox Cathedral until the final rites. Parliament is adjourning until the new government is formed.

SAYS CREDIT CONTROLS TO END

Washington, June 24—(AP)—Chairman Robertson (D-Va.) of a senate banking subcommittee said today that government controls over installment buying will be allowed to die at the end of this month.

Originally the controls were applied during the war, in fields where goods were scarce. They have been continued since the war, but they have been liberalized several times.

Lincoln Couple Held Up On Farm

Lincoln, Ill., June 23—(AP)—An aged couple reported today they were held up Thursday night in their farm home east of Lincoln by two armed robbers who took cash and bonds totaling \$350 and a ring valued at \$450.

The couple, Elmer Harbert, 75, and his 77-year-old wife, notified Sheriff C. L. Kief of the robbery. They said they were tied in an upstairs room while the two men ransacked the ground floor.

Harbert managed to free himself later.

OUR INVISIBLE LANDMARKS

A Morgan county farmer ended the purchase of some household goods in a Jacksonville store with, "Can you send them out to my place tomorrow?" The merchant replied in the affirmative. "Let's see, you live about five miles out on Route (00). The store man inquired, "That's right—a quarter north of where the school house stood."

His description of where he lives served as a reminder that in the Jacksonville area, as in other Central Illinois communities, we have a series of invisible landmarks, neighborhood cornerposts which, although they can no longer be seen, remain vivid in the minds of those who knew them well.

Nearly every former rural school district has a landmark of memory. These are in all stages of transition. On some locations the buildings have been wrecked, or moved bodily away. Towering oaks and elms still stand guard over the grounds where until a year or two ago children gathered for their elementary education—where parents assembled occasionally to check on pupils' progress, or for evenings of sociability under the sponsorship of P.T.A. and community clubs.

School yard baseball diamonds, where traffic of pounding feet between first and second, and second and home plate, cut well-grooved paths in the grassy sod, are fading from view under tangled vegetation or the plow. Here and there a bird-box remains in a tree, placed there by eager boys and girls with the encouragement of a teacher, before the yellow and black school buses started their rounds, picking up the children and taking them to larger centers of education.

An unfilled basement marks the deserted spot where another school house stood. They'll get around to smoothing the scar in the earth, one-of-these-days, but if they do not, blackberry briars and wild mustard will attend to the job, hiding evidence that the place was once the location of a one room school.

Consolidation of rural schools, which began several years ago and swept the countryside with the force of a cyclone, left these invisible landmarks. Most of the country school houses which drew attendance from several generations of children in their respective districts are gone. The picture remains, however, in the minds of young and old. All during the next half century, as a changing world moves slowly toward the year 2000, someone in each neighborhood can oblige by pointing out the place where the school house stood!

Boyle's Column

They Can Do Anything You Can—And Better

By Hal Boyle

New York, June 24 (AP)—Capt. Bob Anderson isn't worried about his own team.

But he is worried about the caliber of the enemy ball team that will trot into the Polo Grounds against his outfit the night of July 26th. And, of course, he's fretting already about the attendance.

"Last year we drew only about 9,000," he said indignantly. "What do they think we play in wheel-chairs? This year we're hoping for 30,000."

The game is one of the most unusual sports events in New York. It'll be the 17th annual baseball contest between amputee war veterans, sponsored by the National Amputee Foundation.

"We're trying to raise \$100,000 for an amputee information and research center here," said Anderson. "But the main thing is to get the public out so we can show them an amputee can do anything they can."

Bob, 25, lost his left arm to a German artillery shell in France in 1945. He is shortstop and captain of the amputee team. The rival team is made up of leg amputees.

All Players Are Vets
"All the players on both teams are vets from the second world war," he said. "The first world war vets are getting paunchy and slow."

THE DOCTOR SAYS
Ulcerative Colitis May Mean Severe Diarrhea Case

By Edwin P. Jordan, M. D.
Written for NEA Service

The colon is the lower end of the digestive system. It is sometimes affected by a condition known as ulcerative colitis, a disease in which ulcers form on the inside of this passage.

In spite of much study of this condition, there is as yet no real agreement as to its cause. Many kinds of germs have been found in the ulcers but none of them seems to be exclusively responsible. Deficiencies of nutrition, allergy, nervous disorders, and many other possible causes have been investigated.

Severe diarrhea, often accompanied by blood, is a common symptom. Pain in the abdomen is often present but may not be very severe. Fever is also likely to occur and this raises the strong suspicion that the underlying cause is an infection. It is possible, of course, that the infection present is a result of the disease rather than a cause of it.

Dysentery Possible
The disease frequently may be mixed up with various kinds of dysentery. The diagnosis, therefore, requires X-ray studies, examination of the waste material, and the use of an instrument called a sigmoidoscope by means of which the physician can look directly at the ulcerated walls of the colon.

This is not an easy disease to treat. The patient generally needs to be built up physically with a good diet, including ample quantities of minerals, vitamins and fluids. If there has been a considerable loss of blood, iron or perhaps blood or plasma may be useful. The sulfa drugs and penicillin, for which high hopes were held at first, have not proved uniformly successful.

In the serious cases which do not yield to the simpler forms of treatment, surgery may be necessary. On the whole, although ulcerative colitis is a serious and discouraging disease, most people who stick by the treatments which have to be tried eventually recover.

Note: Dr. Jordan is unable to answer individual questions from readers. However, each day he will answer one of the most frequently asked questions in his column.

THE DOCTOR ANSWERS
By Edwin P. Jordan, M. D.
QUESTION: What is a good oil base to administer in hot oil treatments for thinning hair?

ANSWER: I do not know of any reason why oil treatments should prevent the hair from falling. Consequently I cannot recommend hot oil treatments of any kind for this purpose.

William E. Hopper Dies Friday Noon At Residence Here

William Mercer Hopper, well known local resident, died at his home 907 East College avenue at noon Friday, following an illness of several weeks.

Mr. Hopper was born in this city, February 18, 1860, the son of the late Freeman and Nellie Ferguson Hopper.

He was united in marriage with Miss Nellie Headen who died September 30, 1933.

For the past seven years Mr. Hopper has been employed at the Illinois School for the Deaf.

He is survived by two sons, Mercer E. Hopper of Springfield and Freeman Hopper of this city; two sisters, Mrs. L. J. Baker, of Topeka, Kansas, and Mrs. Bernadette Bromley of Chicago; a grandson, William E. Hopper.

The body was taken to the Gillham Funeral Home where the family will meet friends Saturday night from 7 to 9 o'clock.

Funeral arrangements have not been completed.

DRUGS FROM TOADS
The Chinese discovered the medicinal value of the toad ages ago. For centuries, they have prepared drugs from its skin. Its gland secretions are very unpleasant to the taste; the toad uses them to discourage animals who seek to devour him.

Termination Dates For Vet Benefits Occur During July

During the month of July an important date will occur for Illinois veterans of World War II.

The Illinois Veterans Commission announced that veterans who were discharged prior to July 26, 1947 will no longer be able to take advantage of the unemployment benefits of the GI Bill of Rights after July 25, 1949. Hereafter, veterans were entitled to receive readjustment allowances under the Servicemen's Readjustment Act in the amount of \$20 a week for two years if discharged from active service prior to July 25, 1947.

Legislation is now pending in Congress to extend the final dates for this provision of the Act.

Service officers of the Commission have been advised of this deadline and are ready to advise veterans of their entitlements as well as to assist them in making application for other benefits provided by the state and federal governments.

In Morgan county the office of the Commission is located at 6-7 Morrison Block in Jacksonville.

ILLINI GIRLS' STATE-ER

NEWS OF ILLINI GIRLS STATE WRITTEN BY ITS EDITORIAL STAFF.

Canteen Serves Needs For All Girl Staters

Everyone has met the ladies in the meal reservations for guests, and canteen, the first such shop Illini who tries to be of service in solving Girls State has ever had. They sell each problem coming to the office, all those good things to eat, as well Mrs. H. L. Hamilton, director, has a small sundry items we forgot to as her assistant Jane Mary Rendle bring from home. Then there are the man who attended the 1948 session T-shirts, scarfs, and did you see of Girls Nation as one of the Illinoise perfectly adorable wooden nois representatives. In charge of scrap-books? They were veteran- proprieties at Illini Girls State are made.

The ladies are Mrs. Walter J. Hoffman of Park Ridge, the department President of the American Legion Auxiliary and her 2nd vice president, Mrs. Ernest Duckett, of Chicago. They are both advocating the purchase of the articles they sell, but we're still waiting for them to promote sale of T-shirts by wearing one!

All citizens eventually get to the Illini Girls State business office, where they are cordially greeted by Mrs. Lowell Allen, who takes their

GIRLS STATE HEADS

By Lucy Jane King
If you had happened to walk into Wolff's Shoe Store in Greenville one day last week, you would probably have found Mrs. Agnes Wolff, a member of the 1949 Illini Girls State commission, behind a counter busily working on program covers and decorations for the Girls State banquet.

At first mention of the Girls State Mrs. Wolff said "You'll love it!" and her enthusiasm was relayed not only by the warm tone of her voice but also by the smile in her friendly light blue eyes, the corners of which crinkle gaily when she laughs. Her dark brown hair is slightly graying. (Even Girls State has its problems, you know.)

Although this is her first year on the Girls State Commission, she has served as a counselor for eight years, and feels that every one of them has been wonderful.

She has been junior activities chairman of the Greenville American Legion Auxiliary Unit for 10 years; and anyone of her loyal juniors, past or present, will gladly admit that no meeting could possibly be dull or not worthwhile with "Aggie" around.

Her activities in the Auxiliary have not been confined to work with juniors, for she has been unit secretary for eight years and is a past-director of the Twenty-Second District.

In addition to being one of the most active members of the Auxiliary, Mrs. Wolff serves on the Bond County Red Cross committee and local Girl Scout committee. She also does a great deal of work in the Catholic church.

Her personality is so buoyant and friendly that when she talks about Girls State, or anything else for that matter, you just know that it's out of this world. She modestly never mentions the many hours of work she has given to the organizations to which she belongs, but speaks only of her enjoyment of their activities. Her special favorites, and the Auxiliary juniors and Girls Staters.

We hope that you will be able to become acquainted with Mrs. Wolff. She is so sweet—and such a friend, while at Girls State, for the many just too good to be true; who know her consider her a help—full counselor and a sincere friend. I'd bet you have one too!

Good Government Built By Efforts Of Young People

Some adults may feel that until individuals arrive at the voting age their government demands nothing of them. Although they are not asked to assume the responsibilities of selecting governmental officials and holding office until they are older, Americans serve their country from birth.

As they build healthy bodies and secure an adequate education, young people are preparing themselves to become leaders of tomorrow. By developing fine character, personality, habits, and attitudes they add dignity and capacity to the public offices they will later assume. It is their duty to make the most of the educational advantages that are offered them and to keep themselves posted on current events. They should learn the basis upon which their government is formed, its functions, and the privileges it offers so that they will be useful, well-informed citizens in the future.

Abiding by the laws of the nation and by its highest moral standards is demanded of them. Older persons seem to like to exclaim, "What is this younger generation coming to!" therefore it is the challenge of every teen-ager to offer no excuse for this statement.

Even now teen-agers with summer and after school jobs pay income tax to help discharge government expenses, and all pay excise taxes on their purchases.

Each citizen should refrain from destroying or damaging public property. Since the younger once use public recreational facilities more than older persons, it is especially their responsibility to respect the regulations governing them.

It is essential that the younger generation have the proper respect for the government, for the national anthem, and for our great American flag. They must recognize the privileges they are offered them as American citizens, the citizenship so many long for but cannot have. They alone shall one day be responsible for preserving the peace that millions of lives have been sacrificed to secure.

Always Give Smile To Other People; Make Life Sunny

Do you enjoy being miserable? Are you one of those people who always have something wrong with you? My I feel sorry for you. If your object is to collect sympathy you certainly deserve it. Anyone who goes to all that trouble certainly needs something. Maybe a trip to a good psychologist would help, though I doubt if you would be satisfied. You probably don't care to hear the truth.

You're probably a person who grumbles because your best friend or neighbor always has something to smile about. Did you ever stop to think that he can't always be lucky? Things turn out wrong for him too? They don't turn their mouths down like a Jack-O-Lantern but smile and then they get to work and make things right again.

You'd hear that science eventually hopes to have a slight control over weather. Why don't we get a head start and exercise our control of weather right now. Let's have a good report at the end of the week. Let's have sunny weather at Girls State.

GOSSIP
By Margaret McRoberts
My common sense keeps telling me: Things I should and shouldn't do. I shouldn't waste my time, and gee! I mustn't talk of "Sue."

For gossip is the "worstest" thing. I'm sure you'll all agree. I wouldn't want sweet "Sue King." To say mean things of me!

Don't you think that friends are swell? Especially if they're true? On these thoughts our minds should dwell, Gossip Makes friends few.

So often, words may hurt someone. And make for you a foe. Don't take away somebody's fun. Be sweet, wherever you go!

Freedom Of Expression

"Congress shall make no law . . . abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances," thus read the very first Amendment to the Constitution of the United States.

Freedom of speech has been called the most essential aspect of democracy. Freedom of the press is an extension of freedom of individual speech. The two are inseparable; they stand or fall together.

Of course there are proper limitations on speech. A man is liable for damages if he utters or publishes slanderous matter. In times of war strict censorship must be used. But in America this is the exception, not the rule.

Men will inevitably differ in their opinions. Each man must be permitted to stress his own opinion, provided he gives to others the same right. From this mutual toleration the one that seems the most rational will emerge and be generally accepted.

Norman Rockwell, renowned for his interpretation of the Four Freedoms on canvas, illustrates Freedom of Expression with a humble looking young man, standing in what probably is a town meeting, having his say. He is not richly dressed, for he is a common man, in working clothes. But all eyes are on him, rich and poor alike listen while he speaks.

Voltaire is credited with saying "I disagree absolutely with what you say, but I will defend to the death your right to say it."

This is Freedom of Expression.

—By Nancy Johnson.

Tolerance Urged To Achieve Goal Of Democracy

Have you ever noticed that everyone's skin is not the same color as your own? That you don't go to the same church as your neighbor does? Everyone has noticed these things. A lot of us have noticed too much, and have had something smart to say about it.

Would you condemn a person for wearing black just because you didn't like it? No! Or would you condemn a person for liking a different type of food than you do? No, again. Then why must we act differently toward a person who is black, or red, or yellow? Or who is a Protestant, Catholic or a Jew? Why? Many people have tried to answer those two questions and people are still asking them.

We are all created equal. The Bible says we are all brothers and sisters. Should we fight against our own kind? There is only one way to solve this problem and to tear down the walls of prejudice that we have built up between us. Remember that everyone is created equal and if it had been intended to be another way, it would have been so. Also remember to follow the Golden Rule: "Do unto others as you would have them do unto you."

JoAnn Dame.

New Constitution Needed For Better State Government

Who are to be the voters of Illinois in three, four, five years? Why, of course, we are! But under the present Constitution of Illinois, how are we going to be able to improve anything?

We should have a new constitution people say. For under this one, no amendments may be made unless ratified by a two thirds majority of all voters in an election. That does not mean two thirds of those voting in the amendment but those taking part in the election.

It is easy to lose that little slip of paper for the amendment; cannot be on the ballot. It's just as easy to forget it and consequently, few amendments get through.

The argument that the Constitution of the United States is all right and we have had it longer than the Illinois Constitution has been raised.

If only the Illinois Constitution could be as clear and simple as that great paper! Even it isn't perfect. Many obsolete laws are still on the books and can't be changed. Up in the attic there is Grandma's hoop skirts. Put them on and wear them. Use her spinning wheel that stands in the parlor.

It was good enough for Grandma, so it's good enough for you. Or are you a thinking voter of three, four, five years?

Need Cooperation To Run Orchestra And Girls' State

By BARBARA HIGH

One of the qualifications designated as best to have to enter Illini Girls' State is cooperativeness. That certainly is a big word and covers just as much in meaning. Since you always need and should have cooperativeness, I decided to tell you how it fits in with music by three examples.

First: Donna is a very fine piano soloist and wins many honors. Then Ann asks her to accompany her in the state music contest. They practice and practice but Donna has a mind of her own. She is always trying to make it a solo, not for Ann but for herself. The contest day arrives and Ann is nervous. She skips a few lines. Donna goes blithely on her way and poor Ann is completely lost. The judge writes, "Lack of cooperation."

Then we have the charming Lucy. Lucy who doesn't practice the band and orchestra music. The big night of the concert arrives and Lucy comes in a measure too early and much too loud. The conductor mistakes her for a soloist and she plays on loudly despite every effort of the conductor to soften her. Consequently the beautiful flute solo is unheard. The reason, no cooperation.

Also we see the poor overworked director of an a cappella choir who is trying to get some help from the members to produce a musical comedy. The choruses do not line up correctly and everyone is confused but the main characters who are really trying. The morning after the performance we see this in the newspaper—"Leads and Director Produce Fine Musical Comedy"; but what happened to the mention of the choruses? Could they say that there was poor cooperation of choruses in the play?

Yes, cooperativeness is a big word and just as important in everything else as in music.

Musical Knowledge Valuable Asset Throughout Life

By BARBARA HIGH
"Certainly, I like music and I play some too but what place would there be in music for me?"

That's a question you hear from so many high school girls who are trying to decide just what field they want to go into. What place? Oh, there are so many. Teaching, radio work, writing, music really aren't limited anymore.

"But what good would music be to me after I marry?" Well, there's the extra money if you teach a little, and you can interest and teach your own children. Maybe you can start music clubs or be a church organist or sing in your church choir. There are hundreds of ways to use music even after you're married.

After all, music is everywhere around us all the time. It is something which will always last. So if some one asks you or you ask yourself, "Why choose music as a career?" you answer, "Why not?"

A small amount of leftover meat may be put through the food copper, mixed with a little tomato catsup or salad dressing and used as a filling for French-toasted sandwiches. Along with a bowl of soup and a dessert of fruit and cookies, the sandwiches will make an excellent quick meal.

Phelan County

By JOY HAEGG

"Hear ye, hear ye, the polls are now open," echoed through Phelan County as its city elections were held Wednesday. Candidates elected have been reported in another place in the Illini Girls' State.

The same evening city elections were held snacks in the cities came as the climax of the day's activity. Friday evening both cities in the county will get together for another spread. Suthers City girls munched potato chips and drank cokes as they lounged about following their completion of the city election.

Soliday City citizens ate cup cakes, crackers, shoe-string potatoes, cookies, pretzels and had cokes while they summed up the events of a busy Girls State day.

Hit Record Review Names Top List Of Latest Platters

By BARBARA HIGH

What's the best time of the day for you? Guy Lombardo and The Royal Canadians say "The Best Time Of The Day" is when they're with a certain girl. Sounds interesting, huh?

Then there are two girls, Marg Whiting and Dinah Shore, who sang about "A Wonderful Guy" taken from the show, "South Pacific." They both do so well. I couldn't decide which record was best.

Speaking of "South Pacific"—here are two more hits from that Rogers and Hammerstein hit, "Bali Hai" by Bing or Peggy Lee or Perry or from the original cast, Juanita Hall. I liked Peggy's best 'cause it sounded mysterious and husky and had a good accompaniment. "Some Enchanted Evening" is the other and done by Bing or Perry. A toss-up.

This seems to be all running in but songs from shows so here's "My One and Only Highland Fling" from the "Barkleys of Broadway." It's done by three couples: Dinah Shore and Buddy Clark; Jo Stafford and Gordon MacRae; Dick Haymes and Dorothy Carless. I liked Jo and Gordon's best with the Scot accent and its cute style.

We're also getting a song rather like "Nature Boy" called "Lover's Gold." I think it should be a coming hit the way Gordon MacRae does it.

Girls' State Time To See Concrete Examples Of Work

Gee, did I have fun at Girls' State! Why, my roommate and I had more fun together. They had swell meals too and it was lots of fun swimming in the pool. Gosh did I have fun!

And as to the question of how much you learned, what will your answer be?

Girls' State is set up with a purpose of teaching the girls the organization of the state and to make them better citizens of this state.

If we are to be the citizens of Illinois, do we have any responsibility toward this state?

Is it for us during these few days of Girls' State to learn as much about the government and living together as well as playing together?

When elections come should we enter in with enthusiasm and good will?

Remember we are the voters of a few years. This week may be the only time we will be able to see by concrete example our government in operation.

Are we taking advantage of the opportunity afforded us? Let's be good citizens of Girls' State. Let's be good citizens tomorrow.

When you make chicken stew, brown the chicken parts slowly and for a long time before adding the liquid. The browning should take from 20 to 30 minutes at least and will make the gravy an attractive, rich color. Parsley dumplings are delicious served with a chicken stew.

Cheese is an excellent addition to make to scrambled eggs—both from the point of view of nutrition and flavor. Cook the eggs in a double boiler and stir in grated American cheese or a little creamed cottage cheese just before serving.

Mold flavored gelatin in an eight-inch square pan and when set cut in cubes; serve the cubes as a salad on a bed of shredded greens with sour cream dressing; or serve as dessert in sauce dishes with soft custard sauce.

Grand Coulee on the Columbia River is the world's largest concrete dam.

Headlines Show Traffic Accidents Take Large Toll

"Two Escape Injury As Car Overturns"; "Chicagoan Fined on Drunk-Charge"; "Three Women Killed Fire Hurt in Car Accident." These are the headlines which meet our eyes as we glance through the daily paper. The automobile, which was invented to make man's life easier, is fast becoming the country's greatest murderer. Yes, death stalks the highway!

There are many causes for these tragic and unnecessary accidents, but the most common one is carelessness. Too many people forget that there is a speed limit. Someone else is in a hurry and thinks he has to pass in a no-passing zone. It takes only one accident to maim or kill, and that is murder. Murder isn't a very pleasant word.

The teen-ager has the advantage over older people in driving, because his reaction time is shorter. On the other hand, more accidents are caused by teen-agers because of their inability to center attention on their driving.

Anyone with any common sense should know that driving under the influence of alcohol is dangerous. Alcohol is an enslaving drug which slows up the mind. When a crisis comes which requires a split second's thinking, the mind won't react fast enough. Without the quick thinking that an individual normally possesses, the damage is done.

I shall never forget the words of my science teacher when he said, "A death can never be erased. If you kill someone, it will remain in your conscience forever."

Yes, death stalks the highway, and it will continue to do so until you and I and millions of other people can work together to overcome it.

Youth Can Profit By Experience Of Wiser Persons

You are young. Now is the time for learning and there is a lot to learn. An old proverb wisely states, "If youth but knew, and age were able, then poverty would be a fable." You only know as much as you have lived. You can profit by the experience of others or must you find out for yourself?

Voltaire wrote, "Is there anyone so wise as to learn by the experience of others?" But Syrus disagreed in his saying, "Many receive advice, only the wise profit by it."

You hear some men credit their success to the wonderful advice of their parents. Others tell you to follow in the footsteps of some great leader. But you've also heard of the self-made man or someone saying that experience only lights the track it has passed.

You are young. Now is the time to start your journey to success. The road is rough and only you know if you can cry for help on the way.

—Carolyn Barker

Designing Offers Hopeful Field For Artistic Persons

To most people a straight line is the shortest distance between two points, and a curve is something to be whistled at, but to the designer it is the making of a house or a new fashion design in clothes.

Many teen-agers who like to associate with people who have a love for fine things, color and a slight desire to illustrate may find their answer in interior decoration or fashion.

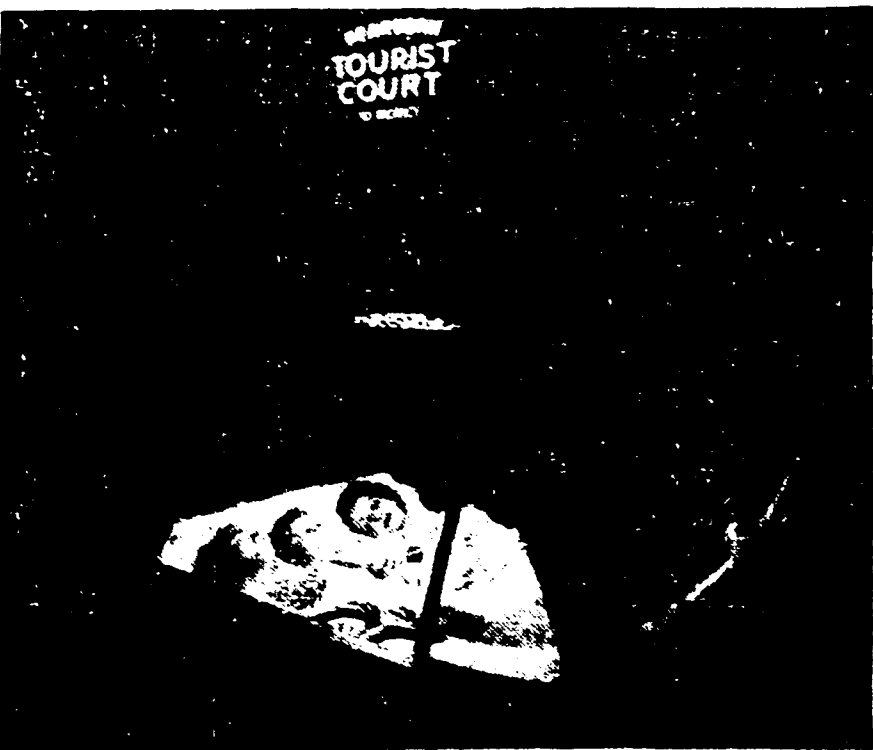

More than ever people are realizing the importance of color in the home. Interior decorators have the job of furnishing homes to suit the taste of their customers—for rich color, Parsley dumplings are both rich men and average income. So it is quite a job to successfully carry out the job of an interior decorator.

Usually you can find the potential interior decorators with their noses buried in a home decorating magazine, and at every chance they are begging mother to let them redecorate rooms so as to use their talents.

The fashion designer has the thrill of helping set the trends of the clothes worn by thousands of women. She can bring out her individual taste in the clothes she designs.

Whether you choose interior or fashion designing you are sure to have an interesting and profitable career.

NO SLEEPING PROBLEM—The 70 million tourists expected to crowd the nation's highways this summer on vacation jaunts will keep tourist cabins, motels, and hotels filled up, but the owner of a 1949 Nash "Air-Flow" with convertible twin beds will have no problem. His family can sleep comfortably—and the beds can be made up in seconds. Latches at the base of the front divided seat backs are released, then the back of the seat is lowered to a stop which has been swung out from under the rear seat cushion. All the trunk space remains available for luggage and special screens permit full ventilation. The twin beds are a full five feet wide.

Reappoint Hamey Local Chairman Of Elks Program

The Elks National Veterans Commission, with headquarters in New York City, has announced the reappointment of Walter F. L. Rhein of Belleville, Ill., as chairman for Illinois for the third consecutive year. Don R. Hamey of the Jacksonville lodge is among eight chairmen in Illinois cities who have accepted reappointment to supervise entertainment of war veterans in local institutions.

The Jacksonville lodge has participated in the national program for several years, providing a series of programs for veterans at the Jacksonville State hospital.

According to the report for the year just ended, the Benevolent and Protective Order of Elks spent \$8,500 of Grand Lodge funds in the state of Illinois for entertainment of veterans in veteran and state hospitals. This entertainment is provided in every hospital in the U.S.A. and its possessions in accordance with a decree of the Grand Lodge of Elks setting up the Elks National Veterans Service Commission to supervise the program and to distribute the funds.

The resolution setting up the commission decrees that at least one entertainment each month is to be provided in every veterans' hospital and for the past three years, since the end of the war, a like amount has been allocated to Illinois for this purpose.

Local chairmen provide many and varied forms of entertainment at their hospitals. A unique bingo party called "buddy bingo" was invented wherein an active player in the auditorium has a "buddy" back in the ward who participates in the play over the intercommunication system and wins a duplicate prize when his buddy actively in the

game is fortunate and wins. Vaudeville, the old time variety show, magic, musicals, and many volunteer organizations make up the monthly programs. In the year just closed these programs entertained over 40,000 veterans and many more in the wards, who, because of incapacity, could not attend in person. In addition, refreshments and cigarettes are distributed during these programs.

Bucket Brigade Douses Blaze

Glasgow — A fire of unknown origin was discovered by neighbors on the outside wall of a small garage and shed Wednesday afternoon at the former home of Mrs. Lena Fundel in the east part of town. The property was recently purchased by Mrs. Lola Bowman.

No one was on the premises at the time, and the fire had reached the roof of the structure before being discovered. Prompt action on the part of a bucket brigade extinguished the blaze before it had done extensive damage.

Union Baptist Homecoming To Be Held Sunday

Homecoming services and a basket dinner will be held Sunday, June 26, at Union Baptist church near Fish Lake, to which the public is invited.

Sunday school will be held at 10 a. m., followed by preaching services at 11 a. m., with Rev. L. E. Riley of Pleasant Plains presiding. The sermon will be delivered by Rev. John Garver of Decatur.

A basket dinner will be served at noon. A program and business meeting have been planned for 1:30 o'clock in the afternoon.

BATTLING BRIDEGROOM Bangkok—A-Nai Thegkorn, 23, was getting ready for his marriage next morning. He counted out \$500, looked over the valuables brought for the ceremony, and then he heard shots. Bandits were attacking his home. He seized a shotgun, killed one of the attackers and kept firing until the bandits fled. The next morning he was married.

PRISCILLA'S POP

WE CAN'T TAKE THEM TO THE SHOW, HAZEL! THEY'RE PLAYING "SLUSHY LOVE STORIES!" WHY ARE THEY ALLOWED TO SHOW FILMS LIKE THAT? ALL THAT SILLY PASSION AND INTRIGUE!! IT'S SHAMEFUL! WOULD YOU MIND STAYING HOME WITH THEM, DEAR... WHILE I GO ALONE?

STEVE CANYON

GRANDWINE, I DON'T KNOW WHAT YOU SAID TO THE COMMANDANT OF THIS REBEL FIGHTER FIELD, BUT IT WILL TAKE MORE THAN TALK TO GET US OUT OF HERE... YOU'RE SO RIGHT, STEVENSON. CLIPPED ANGEL

THE STORY: Mike McTale, a mining engineer, who is telling this story, had been planning a vacation till he met Cory Parnell, beautiful and high-spirited daughter of the late Parboiled Parnell, an old friend of Mike's. Parnell's mine, the Dark Angel, which Cory inherited and was running in spite of miners' superstitions about women and mines, had been dropping in production. Mike is at first patronizing, but after a display of the Parnell temper, Mike sparks Cory, takes her to dinner, and then agrees to look over the mine. Dark Angel mine, situated in Umbrella Mountain, is a modern establishment. Mike meets "Uncle" Jake Whinnaker, not really Cory's uncle, but who has been with the Dark Angel since it started and now is mill superintendent. Archie "Trask" is in charge of everything underground. He is also introduced to Mike, who immediately starts looking for the reason that the mine is no longer producing \$15 ore.

CARNIVAL

As soon as the door closed behind him I said, "Cory, you're wasting time. You're looking for ore that isn't there." whatever is mined is put through the mill. That's elementary."

Morgan Corn, 959,498 Bushels, Sealed Under Federal Support Plans

Morgan county farmers sealed a lot of last year's corn, nearly a million bushels, under the government loan and purchase agreement program. No more loans may be secured, as the final applications must be in the state office by Monday morning, but local farmers have until 5 p.m. Thursday to secure a purchase agreement on their cribbed corn.

Cooperative's Feed Salesmen Banquet At Hotel Friday

Ninety employees of the feed division of the Illinois Farm Supply company attended a banquet held at the Dunlap hotel Friday night. They represented 13 west central Illinois counties.

Sales Manager E. O. Johnson, former Platt county farm adviser, was in charge of the meeting.

Different feeding programs and the nutritional values of different feeds were discussed. Winners of a spring sales contest were recognized. A deep freeze was won by O. M. Nungesser of Madison county; a hot water heater by Russell Baptist, also of Madison; electric grills by H. M. Noss of Adams county and Albert Yowell of Cass.

County organizations represented included Adams, Pike, Schuyler, Brown, Menard, Cass, Montgomery, Macoupin, Madison, Bond, Greene, Calhoun, Morgan and Scott.

Attending from Morgan county were Mr. and Mrs. J. D. Bunting, Mr. and Mrs. Wilbur Patterson, Mr. and Mrs. Emory Thady, Mr. and Mrs. Alfred Enke, William Votsmeier, Leroy Russell and Office Assistants Mary Flynn, Emily Irlam and Patsy Deavers.

Samuel S. Monroe, Prominent Ashland Farmer, Succumbs

Ashland—Samuel Shively Monroe, prominent retired Ashland farmer, expired Friday morning at 5:10 o'clock in St. John's hospital in Springfield. He had been confined in the hospital for two weeks, concluding a ten month illness.

The son of Milton and Jane Adkinson Monroe, the decedent was born in Adair County, Kentucky on June 3, 1882. He was 67 years old.

On December 24, 1903, he was united in marriage with Minnie Florence Christie. The couple were married in Kentucky.

Mrs. Monroe and the following children survive: Baskell of Petersburg, Orvil of Alexander, Roy E. of Ashland and Mrs. Irene Smith, Mrs. Imogene Berardi and Roland Dale, all of Pekin. One son and daughter preceded him in death.

He also leaves several brothers and sisters, Mrs. Katie Robinson of Las Vegas, Nev.; Mrs. Anna Clark, Mrs. Leila Jones, Mrs. Maude Rafferty of Tallula, Mrs. Dora Abneig of Wislami, Wash., Mrs. Mattie Sturdivant of Montezuma, Ore. Half brothers and sisters surviving are Mrs. Florence Burke of Tallula and Shelby, James, Howard, William Monroe, Mrs. Ed Shae, Mrs. Ed Watson, and Mrs. Richard Kruger, all of Springfield. Eighteen grand children also survive.

The deceased was a member of the Tallula Christian church.

The remains have been removed to his home, nine miles north of Ashland.

Funeral services will be held at 2 p.m. Sunday at the Ashland Methodist church. Burial will be in Newmansville cemetery.

CALIFORNIA IN 25 DAYS AIM OF TWO BICYCLE TOURISTS

Two boys cycling to California stopped in Central Park Friday night to take a short rest. They are Maurice Fischheimer, 715 Roscoe, Chicago, and Eugene Karich, 2045 North Burling, also of Chicago. Both are 17 years old.

Fischheimer said that they left the Windy City Wednesday morning and pedaled 125 miles south. Winds were bad and weather cut them down to 80 miles the second day, and by noon on Friday they had only 40 miles.

Their equipment looked like a collection of items from Rummel's Afrika Korps. Sleeping bags, cooking utensils, water, and repair tools comprised the bulk of it.

To get in shape for the trip the boys "dropped up to Milwaukee." Milwaukee is 70 miles from the northernmost tip of Chicago.

At the present time time seems to be a big bowl of cherries. Major worry for the lads is the desert. "We'll drink an awful lot of water going through there," Karich said. But that's a long way away. Right now there is flat land, sunny skies and good roads.

Planned expense for the trip? \$40, believe it or not! Bicycles can be purchased at various stores in Jacksonville.

Lattices is the plural of latex.

GOOD FARMERS WIN F.F.A. DEGREES

Good farming plus leadership paid off earlier this week when 11 vocational agriculture students from Section 15 won state farmer degrees during the annual Urbana convention of the Illinois association, Future Farmers of America.

Photographed after they received their awards are (front row, left to right): Carl Behme, Carlinville; David Cole, Greenfield; Russell Finney, Greenfield; Charles Ferguson, Rockport; Paul E. Walkington, Virden, and Harlan K. Turner, Waverly.

Second row: James Ranson, Franklin; Harry L. Brown, Bluffs; Raymond Kasten, Kenneth Klaus and Peter Konnekers, all of Carlinville.

Funeral Services For Mrs. Weir Friday Afternoon

Final rites for Mrs. Miller Weir were observed at Reynolds chapel Friday afternoon at 2:30 o'clock. Rev. W. C. Meeker officiated, assisted by Rev. Raymond Lewis.

Music was provided by Mrs. Arthur Hecker at the pipe organ. Floral tributes were cared for by Mrs. M. C. Hook, Mrs. Herbert Capps, Mrs. A. H. Burgman, Mrs. Leland Wierries and Miss Louise Bancroft.

Casket bearers were Warren Brockhouse, Vanell Brockhouse, Harold Swain, Leland Wierries, Fred Hopper and Wilford Rice.

Interment was in Diamond Grove cemetery.

Sees Soil Erosion As Worst Damage Caused By Storm

The damaged crops in the fields of Morgan county, the broken power and telephone lines in Jacksonville, the uprooted trees and overturned buildings brought by Thursday's violent wind and rain storm were all costly, but all of them together failed to equal the damage done to Morgan county's rich topsoil.

This was the report made Friday afternoon by Soil Technician Ted Pierce after he and his assistant Larry Hall, completed a tour of the hardest hit areas northeast of Jacksonville.

"Every stream in that area could be called Mud Creek today. There was considerable sheet erosion; the water carried away tons of topsoil where corn and soybeans were planted up and down relatively steep slopes," he continued.

Fields planted on the contour and terraced acres stood the terrific downpour of water much better. The speed of the runoff waters was slowed down and there wasn't so much topsoil carried away.

"Farmers who feel that perhaps they need a grass waterway can easily learn where it belongs, how long and how wide it should be," Mr. Pierce said that although all crops were damaged in that area, some much worse than others, the aggregate damage was greatly less than the loss of fertile topsoil.

LIONESS CLUB PLANS JULY CHICKEN FRY

The regular meeting of the Lioness club was held on Thursday evening at 6:15 o'clock in the banquet room of the Dunlap hotel with Mrs. Harold Henderson, president, presiding. Plans were discussed for a chicken fry to be held at MacMurray Cabin at the regular July meeting. Arrangements were left to a committee recently appointed.

The program committee, Lionesses Cody and Wurga, assisted by Lionesses Hess and Mathews, presented students of Wanda Hopper in a half hour dance review.

The free meal was won by Mrs. Donald Quoy and the table decorations were awarded to Mesdames Black, Furry, Cain, Kormeyer, Crouse and Boucher. Mrs. Shirley Long was a guest.

ROY L. HIXON TRAINING AT CAMP CHAFFEE, ARK.

Recruit Roy L. Hixon, 453 Lorton street, Jacksonville, has been assigned to the Fifth Armored "Victory" division for eight weeks of basic training at Camp Chaffee, Ark. The camp is expected to have 20,000 troops before the end of 1949, which will make it the largest army training center in the nation.

Harriette Jane Gifford Bride Of Rowe Samuel

Vows Spoken In Informal Ceremony

Miss Harriette Jane Gifford of Minneapolis, Minn., became the bride of Paul Rowe Samuel in a lovely informal ceremony performed yesterday afternoon at 5 p.m. in the home of the bridegroom's mother, Mrs. Millicent Samuel of 126 Sanquary street.

The Rev. W. H. Pankhurst, pastor of the Congregational church, received the marriage vows at an improvised altar before the fireplace which was decked with bouquets of white peonies, gladioli and fern. Only members of the immediate family and close friends were in attendance.

Following the wedding, a reception was held at home. The traditional tiered wedding cake centered the serving table and the bridal gifts were displayed in an adjoining room. The couple left for New York City after the reception, where they will be at home at 235 E. 54th street, New York 3, New York.

Mrs. Samuel, the daughter of Mr. and Mrs. C. S. Gifford of 126 W. 49th street, Minneapolis, Minn., is a graduate of Northwestern university at Evanston and has been teaching in the primary department of the Gross Point, Mich., public schools. She will hold a similar position next year at Great Neck, Long Island.

Mr. Samuel, the son of Mrs. Millicent Samuel and the late Justice Paul Samuel of the Illinois Supreme court, attended William and Mary university and is a graduate of Illinois college. He is employed as a television producer in the firm of Dancer-Fitzgerald-Sample of General Mills in New York City and directs the Betty Crocker radio program.
